**TO:**             Mayor Betsy Price and Members of the City Council

**FROM:**         Neil Noakes, Chief of Police

**SUBJECT:**      2020 Racial Profiling Report

---

Racial profiling continues to be regarded as a prevalent theme among law enforcement agencies in the United States as well as with civil rights organizations within the State of Texas. In 2001, the Texas Legislature, in an attempt to address the issue of racial profiling in law enforcement, passed the Texas Racial Profiling law. Although the Fort Worth Police Department was partially exempt from full reporting, the department choose at that time to collect all information required under the full reporting status.

On September 1, 2009, legislative revisions were made to the law to include eliminating the requirement to complete checklists on pedestrians, adding Middle Eastern to the designation for race, and requiring submission of specific statistical data to the Texas Commission on Law Enforcement (TCOLE) beginning in 2011.

In 2017, in addition to changes to the existing racial profiling laws, the Sandra Bland Act was signed, requiring law enforcement agencies within the State of Texas to collect additional data and provide a more detailed analysis of the data. Due to the fact the Fort Worth Police Department had been gathering the data for full reporting since 2001, the increased reporting criteria was already in place.

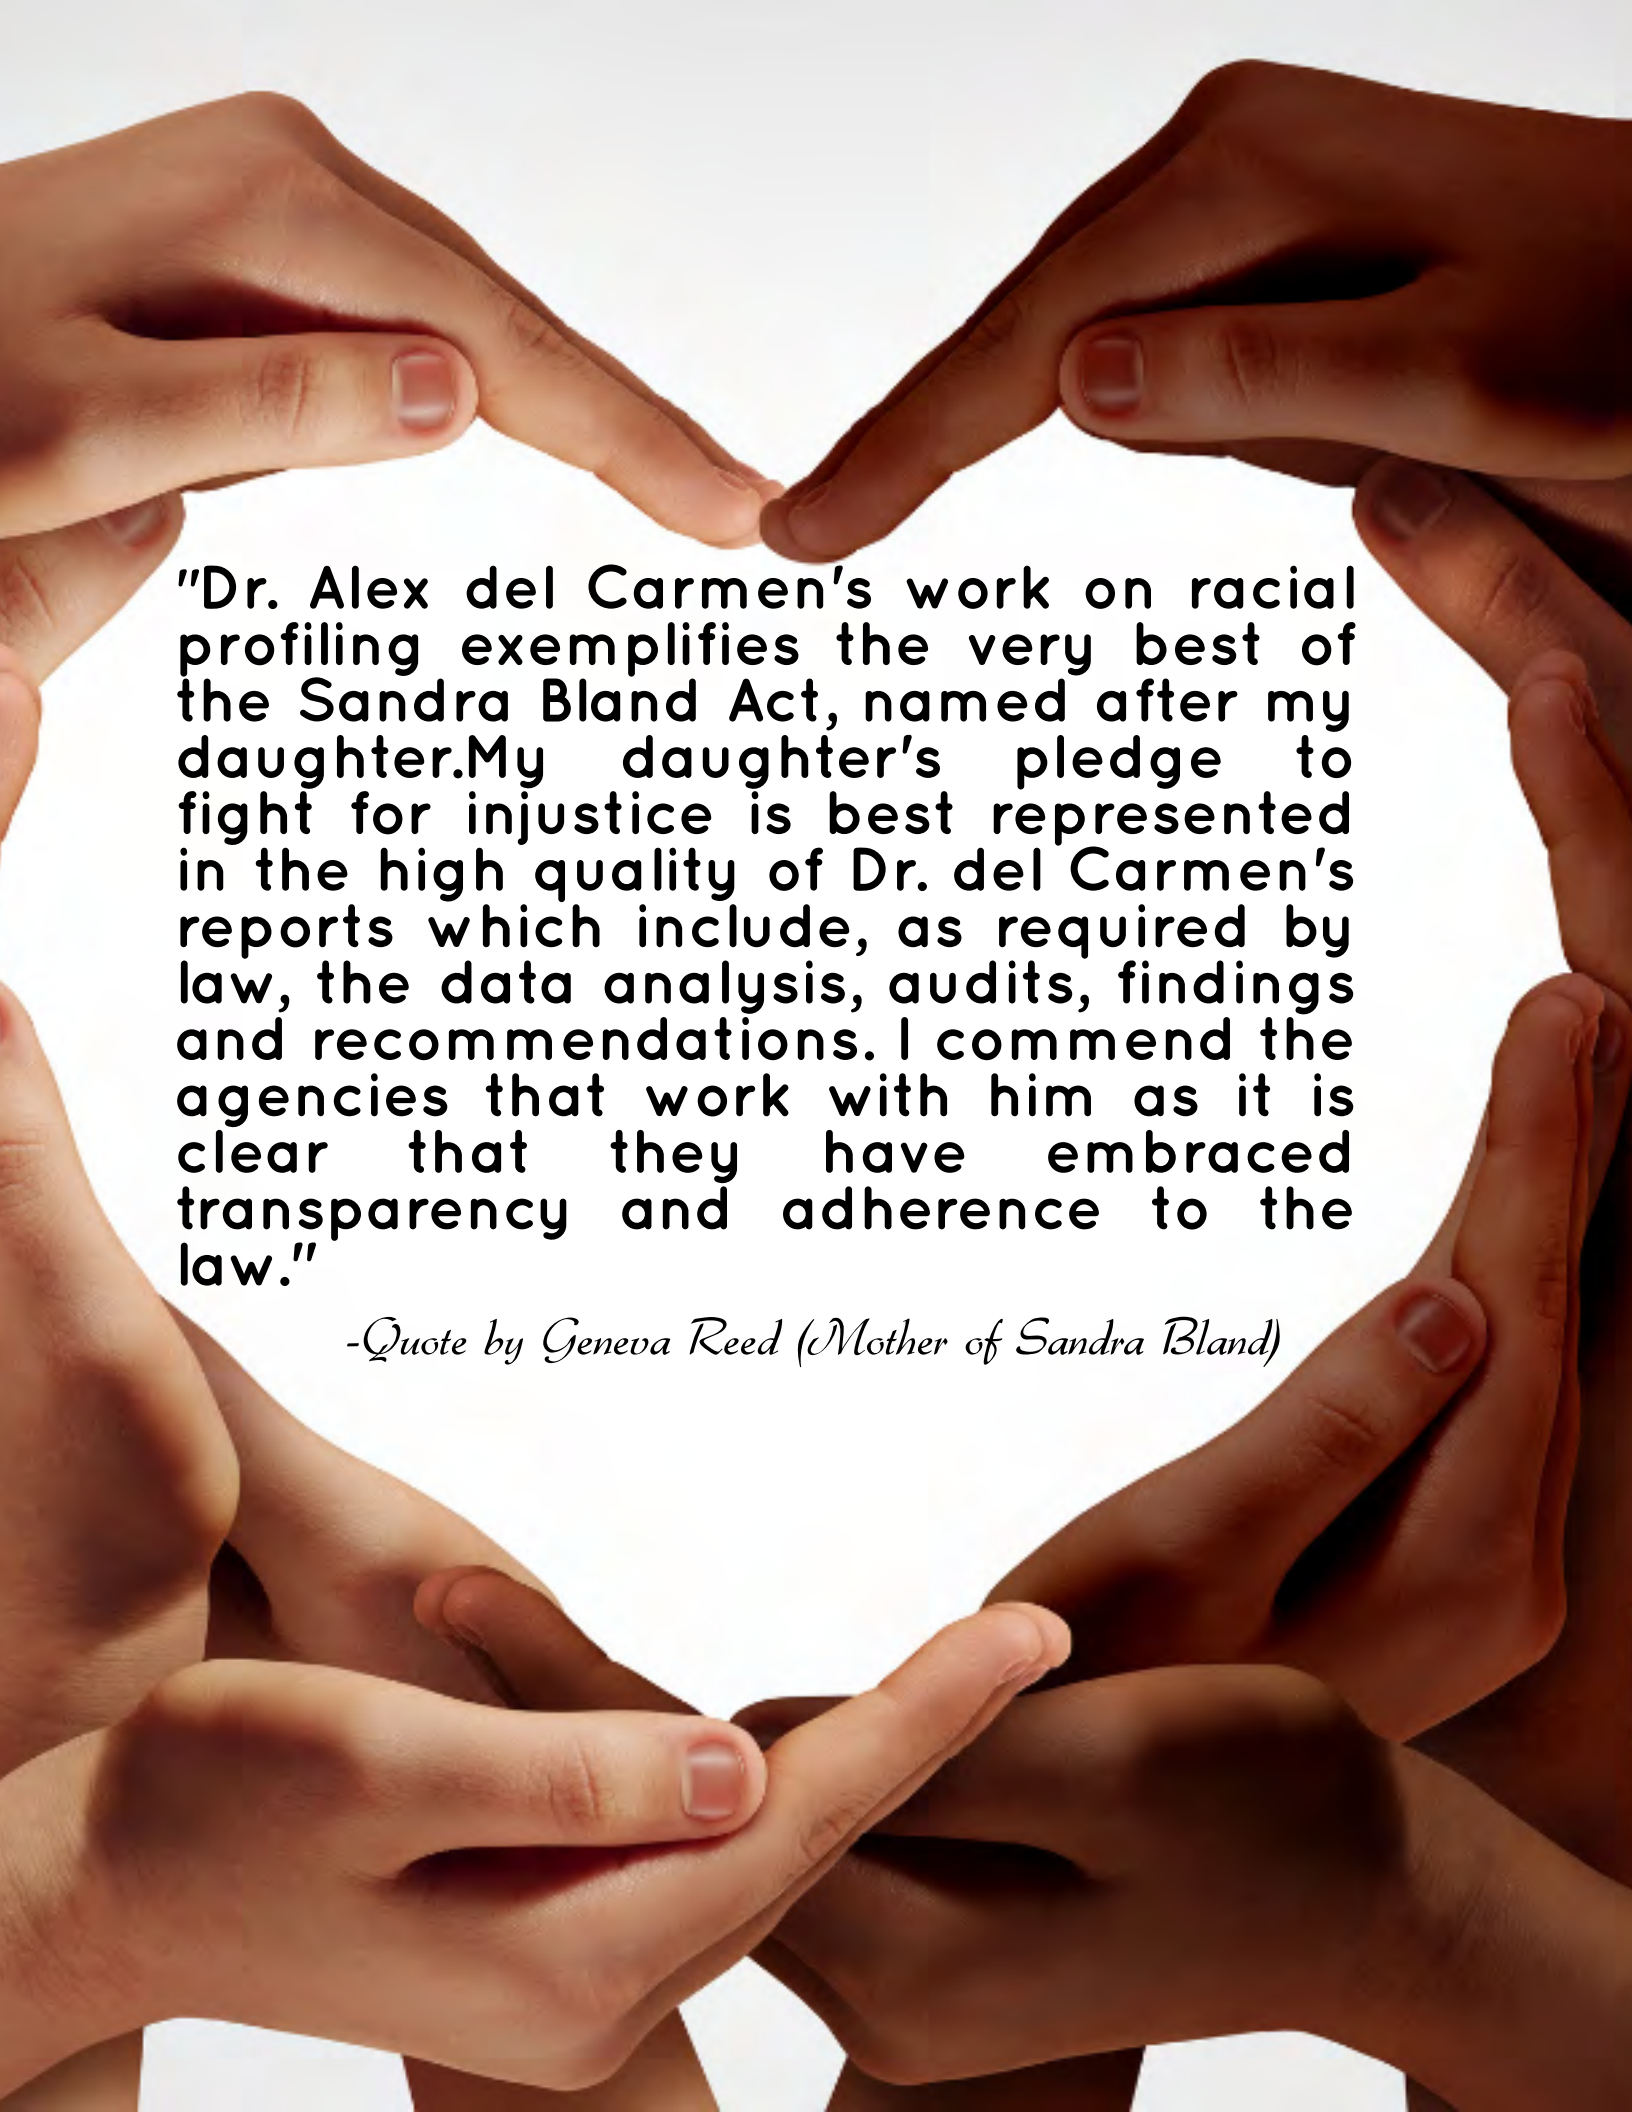

The Fort Worth Police Department remains committed to quality service in partnership with the community and review of applicable administrative policies and procedures to ensure all encountered situations are addressed in a fair and equitable manner. Our department is hopeful the findings in this report serve as evidence of the Fort Worth Police Department's commitment to comply with the Texas Racial Profiling Law.

SANDRA BLAND ACT

"Dr. Alex del Carmen's work on racial profiling exemplifies the very best of the Sandra Bland Act, named after my daughter. My daughter's pledge to fight for injustice is best represented in the high quality of Dr. del Carmen's reports which include, as required by law, the data analysis, audits, findings and recommendations. I commend the agencies that work with him as it is clear that they have embraced transparency and adherence to the law."

Fort Worth City Council  
200 Texas Street  
Fort Worth, Texas 76102

Dear Distinguished Members of the City Council,

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001, the Texas Racial Profiling Law. During the past year, the Fort Worth Police Department, in accordance with the law, has collected and reported motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Law requires that law enforcement agencies in the state collect additional data and provide a more detailed analysis. All of these requirements have been met by the Fort Worth Police Department and are included in this report.

This particular report contains three sections with information on motor vehicle-related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Fort Worth Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents in addition to the Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. Further, you will find the Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling as well as the Sandra Bland Act. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included. In addition, you will find, in sections 2 and 3 documentation which demonstrates compliance by the Fort Worth Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report includes statistical data relevant to contacts, made during the course of motor vehicle stops and in accordance with the law, between 1/1/20 and 12/31/20. In addition, this section contains the TCOLE Tier 2 form, which is required to be submitted to this particular organization by March 1st of each year. The data in this report has been analyzed and compared to data derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report. The findings in this report serve as evidence of the Fort Worth Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

## **Informing the Public on the Process of Filing a Compliment or Complaint with the Fort Worth Police Department**

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a compliment or racial profiling complaint. In an effort to comply with this particular component, the Fort Worth Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a compliment and complaint on a racial profiling violation by a Fort Worth Police officer. In addition, each time an officer issues a citation, ticket or warning, information on how to file a compliment or complaint is given to the individual cited. This information is in the form of a web address (including in the document issued to the citizen), which has instructions and details specifics related to the compliment or complaint processes.

It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

All Fort Worth Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Fort Worth Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Fort Worth has been included in this report.

It is important to recognize that the Chief of the Fort Worth Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Fort Worth Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

## 2.0 RACIAL PROFILING AND THE COMMUNITY

**2.1 UNIT GOAL:** The student will be able to identify logical and social arguments against racial profiling.

**2.1.1 LEARNING OBJECTIVE:** The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism.

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole .

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers.

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop.

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources.

### **3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION**

**3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.**

**3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.**

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" - "Driving While Black" - a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
2. The driver and passengers are questioned about things that do not relate to the traffic violation
3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search - if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

**3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.**

A. Drug courier profile (adapted from a profile developed by the DEA)

1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
3. Vehicle is rented
4. Driver is a young male, 20-35
5. No visible luggage, even though driver is traveling
6. Driver was over-reckless or over-cautious in driving and responding to signals
7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

**3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.**

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior

1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators

1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

## *Analysis and Interpretation of Data*

In 2001, the Texas legislature passed Senate Bill 1074 which became the Texas Racial Profiling Law. This particular law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1st of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of individuals before detaining them. Further, it was required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and disclosing this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

The Texas Racial Profiling Law also requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific "individual" racist behavior from aggregate-level "institutional" data on traffic or motor vehicle-related contacts.

As referenced earlier, in 2009, the Texas Legislature passed House Bill 3389, which modified the Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These changes included, but are were not limited to, the re-definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it required police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the 2009 law required adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year.

In 2017, the Texas Legislators passed H.B. 3051 which removed the Middle Eastern data requirement while standardizing the racial and ethnic categories relevant to the individuals that came in contact with the police. In addition, the Sandra Bland Act (S.B. 1849) was passed and became law. Thus, the most significant legislative mandate (Sandra Bland Act) in Texas history regarding data requirements on law enforcement contacts, became law and took effect on

January 1, 2018. The Sandra Bland Act not only currently requires the extensive collection of data relevant to police motor vehicle contacts, but it also mandates for the data to be analyzed while addressing the following:

**1. A comparative analysis of the information compiled (under Article 2.133):**

- a. Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;*
- b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;*
- c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches.*

**2. Information related to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.**

In an effort to comply with The Texas Racial Profiling/Sandra Bland Law, the Fort Worth Police Department commissioned the analysis of its 2020 contact data. Hence, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2020 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Whites, Blacks, Hispanics or Latinos, Asians and Pacific Islanders, Alaska Natives and American Indians (Middle Easterners and individuals belonging to the “other” category, as optional categories), that came in contact with the police in the course of a motor vehicle related contact, and were either issued a ticket, citation, warning were issued or an arrest was made. Also, included in this data were instances where a motor vehicle contact took place for an alleged violation of the law or ordinance. The Tier 2 data analysis included, but was not limited to, information relevant to the number and percentage of contacts by race/ethnicity, gender, reason for the stop, location of stop, searches while indicating the type of search performed, result of stop, basis of an arrest and use of physical force resulting in bodily injury. It is important to recognize that the department opted to report its data in a more detailed manner (new template) which allows for a better and more reliable analysis.

It should be noted that the additional data analysis performed was based on a comparison of the 2020 motor vehicle contact data with a specific baseline. When reviewing this particular analysis, one should consider that there is disagreement, in the literature, regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Fort Worth Police Department opted to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2010) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households. It is anticipated that next year, when the 2020 Census findings are available, this information will be updated, accordingly.

There is no question that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Fort Worth Police Department in 2020 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

Since 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of “households” that have access to vehicles. Thus, proposing to compare “households” (which may have multiple residents and only a few vehicles) with “contacts” (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, the Fort Worth Police Department accepted the recommendation to utilize this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “good will” and “transparency” before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort-Worth (DFW) Metroplex.

### **Tier 2 (2020) Motor Vehicle-Related Contact Analysis**

When analyzing the enhanced and more detailed Tier 2 data collected in 2020, it was evident that most motor vehicle-related contacts were made with Whites. This was followed by Hispanics and Blacks. Of those that came in contact with the police, most tickets or citations were issued to Hispanics; this was followed by Whites. However, in terms of written warnings, most of these were issued to Whites; followed by Blacks.

Regarding searches and arrests, the data showed that most searches took place among Blacks. When considering all searches, most were consented by Blacks while most custody arrests were of Blacks, as well. Overall, most searches did not result in contraband; of these, most searches producing contraband took place among Blacks; this was followed by Hispanics. Of the searches that did not produce contraband, most were of Blacks. Most arrests were made on Blacks; this was followed by Hispanics. Most of the arrests that originated from a violation of the penal code involved Blacks. This same was evident among those arrested as a result of a violation of a traffic law or those arrested due to an outstanding warrant. Overall, the police department reports twelve instances where force was used that results in bodily injury.

### **Comparative Analysis**

The data analysis of motor vehicle contacts to the census data relevant to the number of “households” in DFW who indicated, in the 2010 census, that they had access to vehicles, produced interesting findings. Specifically, the percentage of Whites, Asians and American Indians that came in contact with the police was the same or lower than the percentage of White, Asian and American Indian households in DFW that claimed, in the 2010 census, to have

access to vehicles. The opposite was true of Blacks and Hispanics. That is, a higher percentage of Blacks and Hispanics came in contact with the police than the percentage of Black and Hispanic households in DFW that claimed, in the 2010 census, to have access to vehicles.

The analysis of the searches performed shows that most of the searches did not produce contraband. In addition, of those searches that produced contraband, the majority of them involved Black contacts.

### **Summary of Findings**

The most recent Texas Racial Profiling Law requires that police department perform data audits in order to validate the data being reported. Consistent with this requirement, the Fort Worth Police Department has engaged del Carmen Consulting, LLC in order to perform these audits in a manner consistent with normative statistical practices. As shown in table 6, the audits performed have shown that the data is valid and reliable. Further, as required by law, this report also includes an analysis on the searches performed. This analysis includes information on whether contraband was found as a result of the search while controlling for race/ethnicity. The search analysis demonstrates that the police department is engaging in search practices consistent with national trends in law enforcement.

While considering the findings made in this analysis, it is recommended that the Fort Worth Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals.

As part of this effort, the Fort Worth Police Department should continue to:

- 1) Perform an independent analysis on contact and search data in future years.
- 2) Commission data audits in 2021 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The comprehensive analysis of the data included in this report demonstrates that the Fort Worth Police Department has complied with the Texas Racial Profiling Law and all of its requirements. Further, the report demonstrates that the police department has incorporated a comprehensive racial profiling policy, currently offers information to the public on how to file a compliment or complaint, commissions quarterly data audits in order to ensure validity and reliability, collects and commissions the analysis of tier 2 data, and ensures that the practice of racial profiling is not tolerated.

# Checklist

The following requirements were met by the Fort Worth Police Department in accordance with The Texas Racial Profiling Law:

- ✓ Implement a Racial Profiling Policy citing act or actions that constitute racial profiling.
- ✓ Include in the racial profiling policy, a statement indicating prohibition of any peace officer employed by the Fort Worth Police Department from engaging in racial profiling.
- ✓ Implement a process by which an individual may file a complaint regarding racial profiling violations.
- ✓ Provide public education related to the compliment and complaint process.
- ✓ Implement disciplinary guidelines for officers found in violation of the Texas Racial Profiling Law.
- ✓ Collect, report and analyze motor vehicle data (Tier 2).
- ✓ Commission Data Audits and a Search Analysis.
- ✓ Indicate total number of officers who knew and did not know, the race/ethnicity of individuals before being detained.
- ✓ Produce an annual report on police contacts (Tier 2) and present this to the local governing body and TCOLE by March 1, 2021.
- ✓ Adopt a policy, if video/audio equipment is installed, on standards for reviewing video and audio documentation.

# TCOLE GUIDELINES

## Guidelines for Compiling and Reporting Data under Senate Bill 1074

### Background

Senate Bill 1074 of the 77<sup>th</sup> Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

### Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

### Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an “agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers’ official duties.”

The article further defines race or ethnicity as being of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American.” The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

## **Standard 2**

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person’s race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer’s best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

## **Commentary**

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, “the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.”

## **Standard 3**

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

## **Commentary**

Senate Bill 1074 from the 77<sup>th</sup> Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops

including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

#### **Standard 4**

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

#### **Commentary**

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

#### **Standard 5**

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

#### **Commentary**

None

#### **Standard 6**

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

#### **Commentary**

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

**Standard 7**

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

**Commentary**

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

# The Texas Law on Racial Profiling

S.B. No. 1074 - An Act relating to the prevention of racial profiling by certain peace officers.  
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.

(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:

(A) the race or ethnicity of the individual detained; and

(B) whether a search was conducted and, if so, whether the person detained consented to the search; and

(7) require the agency to submit to the governing body of each county or municipality served by the agency an annual report of the information collected under Subdivision (6) if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the

policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(f) On the commencement of an investigation by a law enforcement agency of a complaint described by Subsection (b)(3) in which a video or audio recording of the occurrence on which the complaint is based was made, the agency shall promptly provide a copy of the recording to the peace officer who is the subject of the complaint on written request by the officer.

Art. 2.133. REPORTS REQUIRED FOR TRAFFIC AND PEDESTRIAN STOPS. (a) In this article:

(1) "Race or ethnicity" has the meaning assigned by Article 2.132(a).

(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic or who stops a pedestrian for any suspected offense shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense;

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband was discovered in the course of the search and the type of contraband discovered;

(5) whether probable cause to search existed and the facts supporting the existence of that probable cause;

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;

(7) the street address or approximate location of the stop; and

(8) whether the officer issued a warning or a citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Art. 2.134. COMPILATION AND ANALYSIS OF INFORMATION COLLECTED.

(a) In this article, "pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled

during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) determine the prevalence of racial profiling by peace officers employed by the agency; and  
(B) examine the disposition of traffic and pedestrian stops made by officers employed by the agency, including searches resulting from the stops; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and

(B) each traffic and pedestrian stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(2) the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a)(1)(A) and the agency does not receive from the state funds or video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT.

(a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

Art. 2.138. RULES. The Department of Public Safety may adopt rules to implement Articles 2.131-2.137.

SECTION 2. Chapter 3, Code of Criminal Procedure, is amended by adding Article 3.05 to read as follows:

Art. 3.05. RACIAL PROFILING. In this code, "racial profiling" means a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.

**FORT WORTH POLICE  
DEPARTMENT  
RACIAL PROFILING POLICY**

**347.00 COMMUNITY POLICING STRATEGIES**

**347.01 POLICE AND COMMUNITY RELATIONSHIPS** *(New Order 7/18/18)*

Citizen participation and interaction with the police are necessary to promote cooperative efforts in resolving community issues. It is shared responsibility of all Department members to establish and promote rapport with members of the community. The Department must strive for the establishment of a climate where officers may perform their duties with the acceptance, understanding, and approval of the public. Additionally, the willing and practiced participation of the people in enforcing the law is essential for the preservation of freedom.

- A. Community policing is a philosophy that promotes organizational strategies that support the systemic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, and fear of crime.
- B. A reverence and respect for the dignity of all persons and the sanctity of all human life shall guide all training and leadership. Members of law enforcement derive their authority from the public; and therefore, must be ever mindful that they are not only the guardians, but also the servants of the public. Just as all persons are subject to the law, all persons have a right to dignified treatment under the law, and the protection of this right is a duty, which is as binding on the Department as any other.
- C. All officers must treat a person with as much respect as that person will allow, and officers must be constantly mindful that the people with whom deal with each day are individuals with human emotions and needs. Such conduct is not a duty imposed in addition to an officer's primary responsibilities; it is inherent in them.
- D. In dealing with all people, each officer must attempt to make their contact one which inspires respect as an individual and professional, and one which generates the cooperation and approval of the public. While entitled to personal beliefs, an officer cannot allow individual feelings or prejudices to enter into public contacts. However, since an officer's prejudices may be subconsciously manifested, it is incumbent upon the officer to strive to avoid the influence of attitudes which might impair impartiality and effectiveness, keeping in mind that initial contacts leave lasting impressions both of the individual officer and of the Department as a whole.
- E. To ensure equal treatment in similar circumstances, all officers must be alert to situations where, because of a language barrier or for some other reason, officers may be called upon to display additional patience and understanding in dealing with what might otherwise appear to be a lack of response.
- F. The Department must be responsive to the needs and problems of the community. While the Department's task is governed by the law, the policies formulated to guide the enforcement of the law must include consideration of the public will. This responsiveness must be manifested at all levels of the Department by a willingness to listen and by a genuine concern for the problems of individuals or groups. The total needs of the community must become an integral part of the programs designed to carry out the mission of the Department.
- G. To promote understanding and cooperation, there must be interpersonal communication between members of the community and officers at all levels of the Department. All employees must be aware of the law enforcement needs of the community and their particular assigned area of responsibility. Guided by policy, an officer must tailor their performance to attain the objective of the Department and to solve the specific crime problems in the area the

officer serves. The Department must provide for programs to encourage productive dialogue with the public at all levels and to ensure that the unity of the police and the public is preserved.

- H. It is necessary that there be full public disclosure of policies and openness in matters of public interest. Consistent with protection of legal rights of involved individuals and with consideration of the necessity for maintenance and confidentiality of Department records and of other primary Department responsibilities, the Department is to disseminate accurate and factual accounts of occurrences of public interest. Additionally, the Department must strive to make known and accepted its objectives and policies.
- I. It is the duty of every employee of the Department to build an open relationship and dialog with the community served. This is accomplished through a variety of means to include, but not limited to, community forums and meetings, open house, citizen advisory committees, and specifically-targeted programs. The Department seeks to develop partnerships and resources within the community to build problem-solving groups and to instill a sense of mutual responsibility toward enhancing public safety and to increase the community's ability to resolve issues related to crime or a perception of crime. The following areas should be considered when employees are working with community members:
  - 1. Exchange of helpful information.
  - 2. Promote police services that are available to the community.
  - 3. Discuss Department objectives, community problems, and successes.
  - 4. Encourage discussion to promote action aimed at solving problems that may exist.
  - 5. Educate citizens about the functions and operations of the Department.
  - 6. Obtain input from community groups to ensure that Department community relation policies and/or training reflect the needs of the community.
  - 7. Identify sources of conflict between the Department and the community and encourage efforts to resolve them.
- J. Command staff, with input of all employees and the community, shall conduct evaluations at least twice a year regarding Department community relation plans and programs, analyzing the methods that have been effective and substituting poorly performing programs and/or methods of action with new approaches. Command staff shall also outline the Department's expectations of community trust building for all officers and non-sworn employees setting out measurable objectives expected from the specific units and/or programs.
  - 1. Input on community relations plans and programs from the community should be sought through community forums, informal meetings such as Coffee with a Cop, and Code Blue representatives.
  - 2. Input from the employees on community relations plans and programs should be sought by command staff through specific email addresses, employee meetings, after action reports, and direct contact with program coordinators.
- K. Specialized Units and Department Programs directed to the Community.

Each unit and/or program shall outline in their Standard Operating Procedures the specifics of measurable objectives, evaluations and their level of review, necessary training, expectations of the employee, and the content and schedule of reports and meetings. Standard Operating Procedures shall be reviewed annually and approved by the appropriate deputy chief.

  - 1. Neighborhood Police Officer (NPO) - Foremost in the duties of the Neighborhood Police Officer is the responsibility of promoting the concept of community policing through working in the neighborhoods, housing communities, recreational centers, businesses, and

**347.00 COMMUNITY POLICING STRATEGIES**

**347.02 RACIAL PROFILING** *(Revised 1/8/18)*

The guidelines in this General Order are intended to reaffirm the department's commitment to unbiased policing in all its encounters between an officer and any person; to reinforce procedures that serve to ensure public confidence and mutual trust through the provision of services in a fair and equitable fashion; and to protect officers from unwarranted accusations of misconduct when acting within the dictates of departmental policy and the law.

- A. Officers shall police in a proactive manner and investigate suspected violations of law. Officers shall actively enforce state and federal laws in a responsible and professional manner, without regard to race, ethnicity or national origin. Officers are strictly prohibited from engaging in racial profiling as defined in this order. This order shall be applicable to officer's interactions with all persons, whether drivers, passengers or pedestrians.
- B. Officers shall conduct themselves in a respectful manner at all times when dealing with the public. Two of the fundamental rights guaranteed by both the United States and Texas constitutions are equal protection under the law and freedom from unreasonable searches and seizures by government agents. The right of all persons to be treated equally and to be free from unreasonable searches and seizures must be respected. Racial profiling is an unacceptable patrol tactic and is strictly prohibited.
- C. This order shall not preclude officers from offering assistance, such as upon observing a substance leaking from a vehicle, a flat tire, or someone who appears to be ill, lost or confused. Nor does this order prohibit stopping someone suspected of a crime based upon observed actions and/or information received about the person.
- D. Definitions
  - 1. Racial Profiling – A law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.
    - a. Racial profiling pertains to persons who are viewed as suspects or potential suspects of criminal behavior. The term is not relevant as it pertains to witnesses, complainants or other citizen contacts.
    - b. The prohibition against racial profiling does not preclude the use of race, ethnicity or national origin as factors in a detention decision. Race, ethnicity or national origin may be legitimate factors in a detention decision when used as part of an actual description of a specific suspect for whom an officer is searching. Detaining an individual and conducting an inquiry into that person's activities simply because of that individual's race, ethnicity or national origin is racial profiling. Examples of racial profiling include but are not limited to the following:
      - (1) Citing a driver who is speeding in a stream of traffic where most other drivers are speeding because of the cited driver's race, ethnicity or national origin.
      - (2) Stopping or detaining the driver of a vehicle based on the determination that a person of that race, ethnicity or national origin is unlikely to own or possess that specific make or model of vehicle.
      - (3) Stopping or detaining an individual based upon the determination that a person of that race, ethnicity or national origin does not belong in a specific part of town or a specific place.

## Fort Worth Police Department General Orders

---

- c. A law enforcement agency can derive these principles from the adoption of this definition of racial profiling:
    - (1) That law enforcement officers may not use racial or ethnic stereotypes as factors in selecting whom to stop and search.
    - (2) Racial profiling is not relevant as it pertains to witnesses, etc.
    - (3) That police may not use racial or ethnic stereotypes as factors in selecting whom to stop and search, while police may consider race in conjunction with other known factors of the suspect.
  2. Race or Ethnicity – Of a particular decent, including White, Black, Hispanic or Latino, Asian or Pacific Islander, or Alaska Native or American Indian.
  3. Motor Vehicle Stop – A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic.
- E. Training
1. Officers are responsible for adhering to all Texas Commission on Law Enforcement (TCOLE) training as mandated by law.
  2. All officers shall complete a TCOLE training and education program on racial profiling not later than the second anniversary of the date the officer is licensed under Chapter 1701 of the Texas Occupations Code or the date the officer applies for an intermediate proficiency certificate, whichever date is earlier. A person who on September 1, 2001, held a TCOLE intermediate proficiency certificate, or who had held a peace officer license issued by TCOLE for at least two years, shall complete a TCOLE training and education program on racial profiling not later than September 1, 2003.
  3. The Chief of Police, as part of the initial training and continued education for such appointment, will be required to attend the LEMIT program on racial profiling.
  4. An individual appointed or elected as a police chief before the effective date of this Act shall complete the program on racial profiling established under Subsection (k), Section 96.641, Education Code.
- F. Complaint Investigation
1. The department shall accept complaints from any person who believes he or she has been stopped or searched based on racial, ethnic or national origin profiling. No person shall be discouraged, intimidated or coerced from filing a complaint, nor discriminated against because he or she filed such a complaint.
  2. If an officer initiating a stop receives an allegation of racial profiling, the officer shall provide their name and ID number to the individual with information on how to contact Internal Affairs or the officer's supervisor. Any employee contacted shall provide to that person information on the department's process for filing a complaint. All employees will report any allegation of racial profiling to their supervisor before the end of their shift.
    - a. Officers shall provide information, including telephone number, mailing address, and email address for contacting Internal Affairs to any individual who inquires about reporting an incident perceived to be racially motivated, or who wishes to generate a compliment.
    - b. Any supervisor/manager receiving a racial profiling complaint shall notify the Internal Affairs Division in a timely manner of the complaint and the action taken.
    - c. Supervisors shall monitor the adherence to the General Orders by all employees under their command and shall initiate an investigation into all alleged violations established under this General Order.

## Fort Worth Police Department General Orders

---

3. All complaints will be acknowledged in writing to the complainant who will receive information regarding the disposition of such complaint within a reasonable period of time. The investigation shall be reduced to writing and any reviewer's comments or conclusions shall be sent through the chain of command to the Chief of Police or designee. When applicable, findings and/or recommendations for disciplinary action, retraining, or changes in policy shall be part of the recommendation to the Chief of Police or designee.
4. Allegations of misconduct and disciplinary action shall follow the procedures as outlined in General Order 410.00. Officers shall be subject to disciplinary action up to and including indefinite suspension for engaging in racial profiling.
5. If there is a departmental video or audio recording of the events upon which a complaint of racial profiling is based, upon commencement of an investigation into the complaint and written request of the officer made the subject of the complaint, this department shall promptly provide a copy of the recording to that officer.

### G. Public Education

The police department will inform the public of its guidelines against racial profiling and the compliment and complaint process. Methods that may be utilized to inform the public of the process are news media, radio, service or civic presentations, the Internet, as well as governing board meetings. With respect to each ticket, citation, or warning issued by an officer, the telephone number, mailing address, and email address for Internal Affairs shall be provided either on the warning, ticket, or citation or by other methods directed by the department (i.e. business cards, flyers, stickers, etc). Additionally, information will be made available as appropriate in languages other than English.

### H. Data Collection and Reporting

1. Data shall be collected on all motor vehicle stops. Information will be collected on the driver only. The officer shall promptly enter all data required by law into the Motor Vehicle Stop Checklist database before the end of the duty shift. The form may be found on the Fort Worth Police internal portal under Racial Profiling.
2. Any vehicle equipped with video and/or audio capabilities shall retain the video and/or audio documentation in accordance with the division's standard operating procedures. Such documentation shall be retained for at least 180 days after the stop, or until disposition if a complaint has been made.
  - a. If a complaint has been made, the documentation shall be retained by the Internal Affairs Division until final disposition of the complaint, if not longer as required under other laws or policies.
3. Internal Affairs shall be responsible for compiling the number of racial profiling complaints and forwarding this information to Policy Management at the end of the year.
4. At the direction of the Chief of Police or designee, additional data may be collected by the department in an effort to monitor enforcement actions and to provide a overview of department compliance with this General Order.
5. An annual report will be prepared or coordinated by Policy Management based on the data collection and in accordance with TCOLE guidelines and forwarded to the city manager within the prescribed time period for distribution to the City Council.

### I. Use of Video and Audio Equipment

1. Each traffic stop made by an officer that is capable of being recorded by video and/or audio shall be recorded.

## Fort Worth Police Department General Orders

---

2. Data recorded will follow requirements of General Order 506.03, Officer-Worn Digital Recording Devices, and General Order 506.04, In-Car Recording System.

**347.00 COMMUNITY POLICING STRATEGIES**

**347.03 BIAS-FREE POLICING**

**A. Purpose and Scope**

1. It is the policy of the Fort Worth Police Department to treat all persons with dignity, respect and professionalism. The Fort Worth Police Department provides police services to the community in a nonpartisan, fair, equitable, and objective manner without consideration of race, color, gender, age, national origin, religion, disability, economic status, sexual orientation, gender expression, gender identity, transgender status, membership in a cultural group, or other individual characteristics or distinctions.
2. Equal treatment provides that persons, irrespective of race or other distinction shall be treated in the same basic manner under the same or similar circumstances. Equal treatment does not mean all persons in the same or similar circumstances can or must be treated identically in all cases. Reasonable considerations and/or accommodations may be made when dealing with individuals with physical or mental disabilities, infirmity, illnesses or similar conditions or when information about them necessitates different treatment.

**B. Definitions**

1. Biased Policing - Discrimination in the performance of duties, based on personal prejudices or partiality of officers, that interferes with their professional judgment, training or adherence to law. Biased policing includes, but is not limited to, making prejudicial decisions affecting individuals in classes protected by federal, state and local law.
2. Gender expression - Person's external characteristics and behaviors including, but not limited to, dress, grooming, mannerisms, speech patterns and social interactions that are socially identified with a particular gender.
3. Gender identity - Person's innate, deeply felt sense of gender, which may or may not correspond to the person's physical body or sex listed on their original birth certificate.
4. Sexual orientation - Heterosexuality, homosexuality or bisexuality or being identified with such orientation.
5. Transgender - Person who experiences and/or expresses their gender differently from conventional or cultural expectations including, but not limited to, those who express a gender that does not match the sex listed on their original birth certificate or who physically alter their sex.
  - a. Intersex individuals - Individuals who, because of their chromosomal make-up or other biological reasons are born with physical characteristics that make their biological sex ambiguous.
  - b. Cross-dressers - Individuals whose gender identity matches their birth-assigned sex, but who sometimes prefer to wear clothes not traditionally associated with their sex. Most individuals who consider themselves cross-dressers do not wear cross-gendered attire all of the time. The term "cross-dressers" should not be used to refer to individuals who are living as members of the opposite sex, in accordance with their gender identity.
  - c. Transsexual - An older term, that originated in the medical and psychological communities, and which is used to refer to individuals who wish to change, or have

## Fort Worth Police Department General Orders

---

changed their birth-assigned sex, through hormones, surgery or other physical procedures. Just as many gay people prefer the term "gay" to the term "homosexual," many transgender people prefer "transgender" to "transsexual." Some transgender people, however, still prefer to use the medical term to describe themselves.

### C. Limitations

1. Bias-based policing is prohibited both in enforcement of the law and delivery of police services.
2. Officers shall not use race, color, gender, age, national origin, religion, disability, economic status, sexual orientation, gender expression, gender identity, transgender status, membership in a cultural group, or an individual's ability/inability to speak English as the criteria for determining when or how to take enforcement action or provide police services.
3. Nothing in this order prohibits officers from using the traits and characteristics of persons, such as race, ethnicity, or national origin, in combination with other facts, to assist in establishing reasonable suspicion or probable cause in the same manner that officers would use descriptions such as a specific hair color, height, gender or other identifying traits.
4. Officers shall not unreasonably endanger themselves or another person to conform to this General Order.

D. Any employee(s) who witness or are aware of instances of bias-based policing shall report the incident to their supervisor immediately.

### E. Gender Classification Guidelines for Transgender Individuals

#### 1. Officers shall:

- a. Consider a person transgender if the person identifies themselves as transgender or, if upon reasonable belief that person may be transgender, the officer asks and receives an affirmative response.
- b. Respectfully treat individuals in a manner appropriate to the individual's gender, or gender identity/expression when known,
- c. Use pronouns as requested by the individual ( e.g., "she, her, hers" for an individual who self-identifies as a female; "he, him, his" for an individual who self-identifies as a male). If officers are uncertain by which gender the individual wishes to be addressed, they will respectfully ask the individual for clarification,
- d. When requested, address the individual by the name based on their gender identity rather than that which is on their government issued identification, and
- e. Avoid unnecessary personal questions regarding an individual's anatomy, transition status or sexual history.

#### 2. Officers shall not:

- a. Stop, detain, frisk, or search any person for the sole purpose of determining that person's gender or in order to call attention to that person's gender identity/expression, unless following the established department procedures regarding the proper processing of arrestees,
- b. Except when legally necessary, such as processing an arrest, either require proof of an individual's gender or challenge an individual's gender identity/expression,
- c. Use language that a reasonable person would consider demeaning or derogatory; in particular, language aimed at a person's actual or perceived gender, gender identity/expression, or sexual orientation,

## Fort Worth Police Department General Orders

---

- d. Disclose an individual's gender identity or sexual orientation to other arrestees, members of the public, or other governmental personnel, absent a proper law enforcement purpose,
- e. Make assumptions about an individual's sexual orientation based upon an individual's gender or gender identity/expression, or
- f. Use a person's gender or gender identity/expression alone as reasonable suspicion that the individual is or has engaged in a crime.
